

How to Install MT4 Indicators

To install indicators on MetaTrader 4, follow these steps:

1: Open your MT4 Platform

2: On the upper left corner you will see the “File” button. Click this and select the “Open data folder” tab.

3: A folder should pop up on your screen. Navigate to the folder named “MQL4”.

4: Open the folder named “Indicators”.

5: Drag and drop (or copy and paste) the indicators you want to install inside the “indicators” folder.

6: Close the folder and your MetaTrader 4 platform

7: Open the MetaTrader 5 platform and the indicators are now ready to use.

8: Drag and drop the indicators into the chart window to use it.

Happy Trading!
